

Over A\$15 million  
given to Australian  
and NZ charities  
since 1984

## BRAINWAVE AUSTRALIA, VICTORIA

Brainwave Australia was formed in 2002 to help children with brain disorders or Acquired Brain Injury and provide support and assistance to their families.

Brainwave provides mobility and rehabilitation equipment and also runs a series of Care Programs including family days, weekend camps and an online web forum for up to 800 families per year.

The first ever Camp Brainwave was held in 2010 and proved an invaluable experience for these young people and an important networking experience for their families.

The \$36,000 donation will be used to hold the 2011 Camp Brainwave for 80 children plus a family member, 25 volunteers and 5 medical volunteers.

The Legacy  
Lives On!
