

Over A\$15 million
given to Australian
and NZ charities
since 1984

CHILDREN FIRST FOUNDATION, VICTORIA

Established in 1999, Children First recently received world-wide publicity when they brought conjoined twins, Trishna & Krishna to Australia from Bangladesh for miracle surgery.

The Children First's Miracle Miles program brings children here from developing countries for life-saving/life-changing surgery that is not available in their own country. Whilst in Australia the children are cared for, pre-and post-surgery, in a loving and homely environment at the Children First Farm at Kilmore on the outskirts of Melbourne.

The \$57,000 donation will be used to purchase a new mini bus to transport these children from the Children First Farm to and from their many medical appointments.

The Legacy
Lives On!
