

Over A\$15 million  
given to Australian  
and NZ charities  
since 1984

## ELOUERA ASSOCIATION, NSW

The Elouera Association is based in Cootamundra, NSW and provides education, training and other support services for people with disabilities and their families.

The school has 19 students and includes an employment service, which provides supported employment for 60 adults with a disability, many of whom are past students. They also run a much needed Community Participation Program for students leaving school who are unable to work due to their disability.

The \$67,000 donation will be used to purchase a second bus complete with a wheelchair lift and electric side steps so the entire school will be able to access local community activities in the surrounding townships.

The Legacy  
Lives On!
