given to Australian
and NZ charities
since 1984

FRIENDS OF AUTISM, WESTERN AUSTRALIAN

Friends of Autism provides practical knowledge and services to over 100 families in and around Perth with a child or children with autism. Their services include in-home therapy, after school and school holiday programs.

As many families are simply unable to travel the 75km each week from the Peel Region to Perth to attend these much needed programs, Friends of Autism would like to expand their services with an outreach program.

The \$33,000 donation will be used to purchase a 7 seater minibus to transport therapy resources, equipment and volunteers between Perth and the Peel Region and reach more children with autism and their families.

The Legacy
Lives On!
