KIDS ARE KIDS THERAPY AND EDUCATION CENTRE, WESTERN AUSTRALIA

Kids Are Kids! provides specialist therapy services including speech pathology, occupational therapy, physiotherapy and behaviour management to children with a disability or developmental delay.

A child's long term therapy needs can often result in a significant financial burden being placed on families. Many families don't have the means to access a therapy centre due to transport issues or the child's mobility/wheelchair issues.

The \$73,000 donation will be used to purchase a purpose built van and establish a mobile service. This will allow Kids Are Kids to provide home and community centre visits so more children can receive much needed clinical assessments and therapy services.

The Legacy
Lives On!
