RONALD MCDONALD HOUSE TASMANIA

Ronald McDonald House Hobart provides accommodation for rural and regional families with seriously ill children who need to access specialised medical care in Hobart. They assist up to 450 families per year, providing more than 5,000 bed nights.

As their three storey building is in Hobart's CBD, the only outdoor space for children to play and parents to relax is on the rooftop which currently has a very basic play area.

The \$45,000 donation will be used to renovate the rooftop to include new play equipment, a sand pit, tables and chairs, garden beds and synthetic grass, transforming it into an oasis for ill children and their families.

The Legacy
Lives On!
